

FY22 Adult English Literacy PROGRAM Grant Guidelines and Application Questions

In support of our mission to support a thriving community and effective workforce, MCAEL is offering grant support for **Adult English Literacy Programs** in **FY22 (July 1, 2021 – June 30, 2022)**, with the generous support of the Montgomery County Government. MCAEL partners with organizations and projects that seek to advance immigrant communities in the county through providing adult English for Speakers of Other Languages (ESOL) classes.

To be eligible for a **Program Grant** the applicant organization must:

- Offer at least 120 hours of instructional time a year per learner
- Have an established infrastructure (staff and standard ESOL program components in place, including assessment measures)
 - Be able to show a solid track record demonstrating the ability to successfully carry out the program
 - Have managed enrollment for its classes (registration dates with session start/end dates – not drop-in)

(MCAEL also offers Literacy Access Grants that can be used for new/emerging classes, drop-in classes, and/or programs that offer less than 120 instructional hours per learner per year; please see the separate Grant Guidelines for Literacy Access Grants at <https://www.mcael.org/grants>.)

MCAEL FY22 Grant Program Focus

MCAEL's overarching goal is to increase the number of learners accessing English learning opportunities, and to provide quality programs that yield results. The committed work of the MCAEL coalition of programs and the steady increase of learners served continues, but there still are thousands of adults who have limited English skills in Montgomery County who could benefit from ESOL instruction. To significantly increase the number of learners served, MCAEL is proactively working to improve access to English classes through continuing and new partnerships, and through its grant program. (For more information on MCAEL's strategic plan, see: https://www.mcael.org/sites/default/files/mcael_strategic_plan_2018-2021.pdf.)

MCAEL's work falls under several of the County Executive's priority outcomes, including "An Affordable and Welcoming Community"; see a list of these at: <https://www.montgomerycountymd.gov/Government/visionStatement.html>. MCAEL's work also supports the County Executive's signature initiative of "Advancing Racial Equity and Social Justice."

Final funding decisions are contingent on Montgomery County's FY22 budget process; the County budget is finalized in May. Given the pandemic's effect on national and local government budgets, there may be flat or decreased funding for grants in FY22. Because of this, returning applicants will have an abbreviated application form for FY22. Grants to first-time applicants and new programs may not be possible. This is not a permanent change but is a temporary response to pandemic conditions. MCAEL staff are available to talk about other MCAEL resources that may be made available to adult ESOL programs in Montgomery County.

Within the above context, applications that address the following may be considered favorably:

- 1) Classes for populations that currently lack access to English learning opportunities, especially in Upcounty (including zip codes 20875 and 20876) and East County (including 20903 and 20904);
- 2) Classes on Saturday or Sunday; or
- 3) Innovative approaches to reaching more learners.

MCAEL encourages programs to make use of data and reports on the MCAEL, county government, and other websites to consider how their programming might reach those in need and to support their applications. MCAEL collects and analyzes demographic data on adult ESOL learners to identify gaps in service; the FY20 interactive data presentation is available at: <https://mcael.org/montgomery-county-md>. County data collected through the American Community Survey can be found at <https://www.census.gov/programs-surveys/acs/>.

Generally, preference will be given to applicants that demonstrate that the program/organization:

- provides English literacy instruction that is of high benefit to learners (practically rather than theoretically);
- has clearly defined the goals, scope, location, needs, budget, and means for evaluation of program;
- has a demonstrated commitment to and shown progress in continually improving their program;
- maximizes the use of outside funds, in-kind support, and partnerships;

- can meet the responsibilities set out in the Responsibilities of Grant Recipients on Page 5 of these guidelines.

During the application review process, Grant Panel reviewers will consider each organization or program's efforts and flexibility in meeting the needs of its learners in a changing environment, and how lessons learned in the current year (FY21) are taken into account in plans for FY22. Equity will also be a factor considered by the grant panel. The Grant Panel will also consider returning applicants' fulfillment of grant requirements (attendance of meetings, submission of reports) in the current year.

Use of funds

Program grant funds can be used for all direct costs of implementing the program (including instructor time, classroom rental, textbooks, instructional materials, supplies, staff time managing the program, etc.) as well as some indirect costs. To enable more learners to attend classes, MCAEL grant funding can also be used to cover the cost of childcare offered during instruction, as well as transportation assistance. MCAEL funds may also be used for instructor time devoted to professional development (in-house orientation/training or external training) and for other purposes related to program improvement (for example, curriculum review).

MCAEL grant funding cannot be used for:

- Refreshments or food
- Gift cards for volunteers, instructors, or learners (stipends for instructors or volunteers are allowable)

Completed applications are due by 5:00 pm on Wednesday, April 7, 2021; these must be submitted via the MCAEL Grants Portal, which will be open on February 19 and can be accessed via the MCAEL website at <https://www.mcael.org/grants>. Late submissions will not be considered.

B. Program Design and Delivery

Please complete this section with the assumption that it will be possible to return to in-person classes in FY22.

2. What are the anticipated measurable outcomes for learners' improved literacy skills? In what ways do you expect improved literacy skills achieved through participation in your program to affect the lives of your learners? Examples: a) "x% out of x number of learners will be able to communicate better with their doctor, get a library card, write a note/talk to their child's teacher, as self-reported through exit interviews"; b) "x% of x number of students will progress to another level -- we use y assessment to measure progress in pre and post tests."
